

# SRIPRIYA MALLARI

AI/ML Student | Web Developer

GitHub: [github.com/sripriyamallari](https://github.com/sripriyamallari) | Portfolio: [sripriyamallari.github.io/FutureTech-Professional-Portfolio/](https://sripriyamallari.github.io/FutureTech-Professional-Portfolio/)

## PROFILE

B.Tech student specializing in Artificial Intelligence and Machine Learning, with hands-on experience building AI/ML and web-based projects. Interested in developing practical technology solutions using Python, machine learning, and web development.

## EDUCATION

**B.Tech – Artificial Intelligence & Machine Learning**

**3rd Year**

Kakatiya Institute of Technology and Science for Women, Nizamabad

## TECHNICAL SKILLS

|                 |                                           |
|-----------------|-------------------------------------------|
| Programming     | Python                                    |
| Web Development | HTML, CSS, JavaScript                     |
| AI / ML         | Artificial Intelligence, Machine Learning |
| Tools           | GitHub, Streamlit                         |

## PROJECTS

### AI FAQ Chatbot

Built an AI-powered FAQ chatbot and deployed it as a Streamlit web application.

Project: <https://sripriyamallari-ai-faq-chatbot-app-hro9cv.streamlit.app/>

### Object Detection and Tracking

Developed a computer-vision project for object detection and tracking, deployed using Streamlit.

Project: <https://objectdetectionandtracking-opb2yqzgxzfrbrkvwfreog.streamlit.app/>

### Language Translation Tool

Developed a language translation tool focused on translating text between languages.

## PORTFOLIO

FutureTech-Professional-Portfolio — personal portfolio website showcasing skills, projects, education, and professional information.
